

OLP

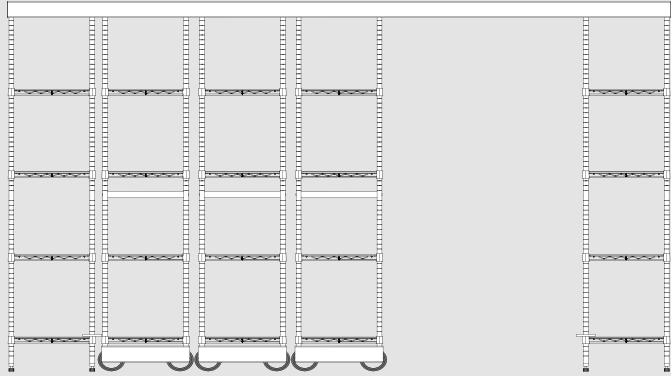

TOP-TRACK®

This lightweight wire shelving system is ideal for storing archive boxes or products that require easy access. Each unit comes with five shelves that can each carry a weight up to 150kg (UDL) per shelf.

With a bolt-less design, the wire shelving units are easy and quick to assemble and are perfect for use in the medical and commercial industries.

Solid Steel Shelf Collar

PRODUCT CUSTOMISATION

We know that sometimes standard products are not enough. To best serve our client's particular requirements, whilst providing furniture that can make every space unique we encourage a customised approach to our wire shelving range. Just some of the customisations we can provide are:

Size Modifications: Custom sized wire shelving can be designed and manufactured to suit any specific uses.

Strength: Using the collar sleeve mechanism to deliver high weight capacities.

Colours: Individual units and even individual shelf levels can be different colours if required.
