SOLUTION

OLP Solving Your Storage Needs

We are a proud Australian owned wholesaler of the STEELCO range office furniture. We have been distributing their products to Australian and New Zealand companies since 2009.

Specialising in dealing directly with resellers to provide the highest quality steel storage solutions to the end-user. Our resellers enjoy an unsurpassed level of service that is second to none in our industry, due to our never ending commitment to continually improve both product quality and customer service. Our substantial stock holding ensures orders are delivered when required and ready for use by your customer.

We are committed to assisting our resellers to provide support to their customers with the purpose of making STEELCO the preferred brand for all steel office furniture needs.

OLP PROUDLY CERTIFIED

AFRDI operates a system of certification for furniture and furniture components with the aim of lifting quality, strength, durability, safety, suitability for purpose and, ultimately, sustainability through increased product durability.

APCO is a not for profit organisation leading the development of a circular economy for packaging in Australia. Our vision is a packaging value chain that collaborates to keep packaging materials out of landfill and retains the maximum value of the materials, energy and labour within the local economy.

Australian Trusted Trader reduces red tape for Trusted Traders at the border, improves certainty in export markets, and expedites the flow of their cargo in and out of Australia, which means faster access to market.

BIFMA Compliant is an industry-wide registry of furniture products that conform to BIFMA safety and durability standards. Compliant provides clarity to the market by differentiating products that meet established industry standards.

ISO (International Organization for Standardization) is the world's largest developer and publisher of International Standards. Over 20 million businesses worldwide are certified or recognized. In Australia, the most common ISO standard for certification is ISO 9001 Quality Management Systems.

SEMA Distributor Group Companies are recognised for the quality supply of their storage equipment and rack safety. The SEMA Distributor Group qualification indicates that the company is dedicated to the supply of quality storage equipment.

Product stewardship acknowledges those involved in designing, manufacturing, and selling products have a responsibility to ensure those products or materials are managed in a way that reduces their environmental and human health impacts, throughout the life-cycle and across the supply chain.

FSC (Forest Stewardship Council), an international non-profit organisation founded in 1993 with a mission to create responsible forestry. It is the only forest verification scheme endorsed by leading environmental charities like WWF, the Woodland Trust and Greenpeace.

Sedex is the world's largest data platform for supply chain assessment, to store, analyse, share, and report on sustainability practices.
